THE OIE IN BRIEF

History

An international
technical and science-based Organisation

182 Member Countries in 2018

World Assembly of Delegates

Highest authority of the OIE

- Composed of all national Delegates of the OIE
- Convenes at least once a year in May

Adopts the OIE Standards published in the OIE Codes and Manuals

1 Member = 1 vote

Council

Constitution

+ 6
Members

President

Dr Mark Schipp
(Australia)

Past President

Dr Botlhe
Michael
Modisane
(South Africa)

Vice- President

Dr Hugo
Idoyaga
Benítez
(Paraguay)

Dr Joaquín
Delgadillo (Mexico)
Dr Evgeny

Dr Christianne
Bruschke (The
Netherlands)
Dr Majid Al
Gassimi(UAE)
Dr Komla Batassé
Batawui
(Togo)
Dr Him Hoo Yap
(Singapore)

Director General

Since 1 January 2016

- Elected in May 2015 by the World Assembly of national Delegates
- 1st woman elected to this position

5-year
Term

2016
2020

- Implementation of the 6th Strategic Plan 2016-2020

Dr Monique Éloit

Specialist Commissions

- Elected by the World Assembly of Delegates

3 year
Term

2018
2021

Functions

- Study **epidemiological** and **scientific** issues
 - Animal disease prevention and control methods
- Develop, update and propose international **standards** and **guidelines** for adoption by the World Assembly of Delegates
- Study **scientific** and **technical** issues raised by Members, excluding **trade** issues for which the Director General may propose mediation

Terrestrial Animal Health Standards
Commission

Code Commission

- Annually updates the OIE Terrestrial Code and specific standards, recommendations and guidelines

Scientific Commission for Animal
Diseases

Scientific Commission

- Supports strategies and identification measures for
 - Disease surveillance
 - Disease prevention and control
- Submits corresponding proposals to the *Code Commission*
- Examines Members' requests regarding their animal health status

Aquatic Animal Health Standards
Commission

Aquatic Animal Commission

- Annually updates the OIE Aquatic Code and Manual
- Formulates recommendations relating to the prevention and control of diseases of fish, molluscs, crustaceans and amphibians

Biological Standards Commission

Laboratories Commission

- Develops diagnostic methods for diseases in mammals, birds and bees
- Defines quality criteria of biological products, including vaccines
- Oversees the development of the Terrestrial Manual
- Supports the Director General in supervising the global network of OIE Reference Centres

Ad hoc and Working Groups

The OIE Commitment: Sixth Strategic Plan (2016-2020)

Global vision

Economic prosperity, social and environmental welfare of populations

2020

Protecting animals

Preserving our future

Delivering timely, high quality information and services to

allow the management of risks to terrestrial and aquatic animal health and welfare

minimise associated dangers to human health

protect the environment and biodiversity in a “One Health” approach

We work to protect the health and welfare of animals globally, leading to economic prosperity as well as social and environmental well-being of populations

Reinforcing trust through **TRANSPARENCY** and communication

we are

Spreading scientific and technical knowledge by:

- Providing technical **Veterinary expertise**
- Collecting and disseminating **disease data** notified by Member Countries

we will

- Improve governance to **strengthen science** and expert roles
- Share our expert **data analysis** through **WAHIS***
- Modernise our external **communication tools**

* The OIE World Animal Health Information System

Improving animal health and welfare by appropriate **RISK MANAGEMENT**

we are

Developing **science-based** guidelines and standards to address:

- Antimicrobials use** and alternatives
- Global disease control** and eradication
- Biothreat reduction**
- Climate change** and biodiversity

we will

- Incorporate **social, economic and environmental sciences**
- Further implement the **One Health** concept
- Enhance countries' **official disease status** recognition
- Take into account **new technologies**

Supporting and strengthening **VETERINARY SERVICES** at the front lines of public health

we are

- Addressing **human-animal health emergencies** with partners
- Enhancing **global governance** of animal health systems
- Improving capacities** of Veterinary Services in Member Countries

we will

- Highlight benefits** brought by sustainable Veterinary Services
- Adapt our capacity-building programmes to **fit local contexts**
- Further improve the **quality of Veterinary Services** through the **PVS Pathway***

*OIE Programme to improve the performance of Veterinary Services

Excellence

quality, objectivity, knowledge transfer, new technologies, timeliness

Engagement

Expert groups, Reference Centres, Specialist Commissions, diversity and selection, next generation scientists

Management

regional adaptations, roles and responsibilities, financial resources, partnerships

3 strategic objectives

1

Improving animal health and welfare by appropriate **risk management**

3 strategic objectives

2

Reinforcing trust
through
Transparency
and
communication

* The OIE World Animal Health Information System

3 strategic objectives

3

Supporting and strengthening
Veterinary Services

at the front lines of public health

*OIE Programme to improve the performance of Veterinary Services

Success factors

Other priority missions

- Food Security and Safety
- Animal welfare
- Good Governance of Veterinary Services
- Capacity building
- Scientific excellence
- Improve animal health management worldwide
- Improve national policies
- PVS Pathway
- Communication

Improve animal health management worldwide

- Develop OIE communication strategies
- Establish multilateral and bilateral arrangements

Support national Veterinary Services to comply
with OIE standards on quality

=

Public good at national and global levels
Global investment priority

- Reinforce and promote the OIE's regional and global influence
 - Governance including public-private partnerships
 - Scientific research
 - Veterinary education
- Further deploy the use of the OIE PVS Tool

OIE PVS Pathway

Sustainable consolidation of national animal health systems

ORIENTATION

- A Sub-Regional Orientation Training Workshop
- B Sub-Regional Lessons Learnt Workshop

EVALUATION

- A PVS Evaluation
- B PVS Evaluation Follow Up
- C PVS Self-Evaluation
- D PVS Evaluation
- E Specific Content

TARGETED SUPPORT

- A One Health Integration (PVS/IHR)
- B Veterinary Legislation Support
- C Sustainable Laboratories
- D Veterinary and Paraprofessional Education
- E OIE National Focal Points Training

PLANNING

- A PVS Gap Analysis
- B PVS Strategic Planning Support

PVS
Pathway

The OIE collaborates with governments, donors and other stakeholders

The “One Health” Concept

A global strategy for managing risks at the
Animal - Human - Ecosystems interface

Tripartite agreement of 3 Directors General

3 Priorities

Zoonotic influenzas

⇒ OFFLU, OIE/FAO
expertise network on animal
influenza

Antimicrobial resistance

⇒ The OIE action plan
contributes to the achievement
of certain issues in the WHO
Global Action Plan

Rabies Global control of canine rabies

⇒ WHO-OIE global
conference in Dec. 2015
⇒ WHO/OIE/FAO/GARC
« Zero By 30 » Strategic plan
in June 2018

Conclusion

OIE activities are a Global Public Good

Benefiting the international community,
contributing to building a healthier future

Protecting animals, preserving our future
